

C PURLIN

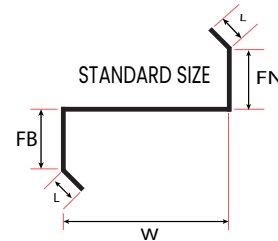

The C profile is a reliable and efficient structural element characterized by its "C" shape. It offers excellent stability and resistance to bending, making it a popular choice for roofing and structural applications.

Purlin Size	Thickness (in)	lb/ft	GAUGE	WEB	FLANGE	Lip

Z PURLIN

The Z profile is a versatile and robust structural solution distinguished by its "Z" shape. Its unique design provides enhanced load-bearing capacity and stiffness, making it an ideal choice for applications that require higher strength and stability.
